INTRODUCTION

We are a vibrant company dealing in vast range of Bakery ingredients, cake decoration, chocolate decoration, bakery equipment, bakery tools and food packaging. By connecting its unique competence in innovation, product development & distribution, our company gives great sense of fulfillment to bakery & chocolate segment.

A good amount of time is spent on understanding the ever-changing trends in the market based upon which new products are periodically introduced. As a result, we have succeeded in catering a wider set of customers across the globe, thus expanding internationally in a very short period. We thrive to use every effective sales channel to ensure our products rightly meet the existing demand in the market. Based in Indore (M.P) India, we cater vast distribution channel in India & other countries. Company has also opened retail stores with brand “FDS Food Décor Shop” across the India which showcases large retail & institutional range of products from the “House of Bakersville”

We pay prime attention to employee as well as customer satisfaction. Every process involved, right from manufacturing to packaging is carried out using highly sophisticated automated machinery. A quality check is performed at every level of production, thereby ensuring that the finished item meets the set quality criteria. Bakersville has been certified with the ISO 9001:2008 certification for Quality Management System and ISO 22000:2005 certification for Food Safety Management Systems

You will need:

Waffle Mix
(1 kg)

Water
(900 to 1000ml)

Vegetable Oil
(100ml)

Bread Darkener

Bread Darkener is made from roasted barley malt flour, it's well suited for artisan breads like country bread, farmer bread & traditional breads, imparting a naturally dark colour, aroma & flavour also helping keep the bread fresh for longer.

APPLICATION :

Suggested optimum dosage of 1% to 3% of the flour quantity.

KEY BENEFITS :

- Completely natural bread darkener.
- Mixes smoothly and evenly into dough.
- Enhances flavour and taste of baked goods.
- No artificial flavours, additives and preservatives.

It is a natural bread darkener that imparts a dark colour along with a rustic, malty flavour to your baked goods.

Pack Size 1kg/Pouch

Food additive range specially selected for baking and confectionery applications. Help improve texture, stability, freshness, and shelf life of finished products. Suitable for a wide range of bakery, dessert, and confectionery preparations.

DESCRIPTION

Ascorbic Acid Select

White crystalline powder used as an antioxidant and nutritional fortification. Prevents oxidative browning and rancidity; preserves colour and freshness.

CMC Powder Select (Carboxymethyl Cellulose)

Cellulose-derived thickener and stabiliser with excellent water-binding and viscosity-building properties.

Dextrose Select

Simple sugar derived from starch, offering mild sweetness, quick energy release and good fermentability.

Ice Cream Stabilizer Select

Blended compound that controls ice crystal formation and improves texture, body and melt resistance.

Potassium Sorbate Select

Widely used food preservative effective against mould, yeast and fungi, with a neutral taste profile.

Sodium Benzoate Select

Antimicrobial preservative effective in acidic conditions inhibits bacteria, yeast and mould growth.

Sorbic Acid Select

Preservative that inhibits mould and yeast growth without affecting flavour.

Xanthan Gum Select

Offers superior thickening, stabilising and suspension properties even at low concentrations.

GMS Flakes Select

White to cream waxy flakes; emulsifier and stabilizer.

GMS Powder Select

White to off-white fine powder; emulsifier and stabilizer, faster dispersing.

Sodium Propionate Select

White crystalline powder/granules used as a preservative. Inhibits mould and rope-forming bacteria; extends shelf life without affecting taste.

APPLICATION

Fruit juices, bakery, dietary supplements.

Ice creams, sauces, dough conditioning in bakery.

Bakery, confectionery, beverages, fermentation industries.

Ice creams, frozen desserts, soft-serve mixes, kulfi.

Bakery products, cheese, wine, fruit juices, pickles, sauces.

Carbonated beverages, fruit juices, pickles, sauces, jams.

Cheese, baked goods, dried fruits, wine, beverages.

Sauces, dressings, gluten-free baking, dairy products, beverages.

Bakery, margarine, bulk food processing.

Bakery, margarine, bulk food processing, fine food emulsions.

Bread, cakes and bakery products, cheese and dairy.

Glucose Syrup

Purix Liquid glucose is colourless, odorless, viscous sweet syrup. It controls the formation of sugar crystals which is particularly important when you are making desserts and confectionery. It's often utilized to make candy, fondant & premade baked goods.

Tylose Powder is pretty much the man made version of gum tragacanth and does the same thing. It provides the sugar paste properties that make the paste with binding and structure properties that make the paste last longer.

Pack Size	10g/Bottle	75g/Bottle	500g/Jar	1kg/Jar
-----------	------------	------------	----------	---------

Isomalt

Isomalt is a sugar substitute used in confectionery for creating sugar-free candies and intricate edible decorations. It's low-calorie properties and heat resistance make it ideal for crafting elegant and diabetic-friendly sweets.

Pack Size	125g/Bottle	500g/Jar	1kg/Jar	2kg/Jar
-----------	-------------	----------	---------	---------

The Sweet Lace Powder is fantastic due to its use on fondant cakes and on different artistic edible works in bakery segment. The lace powder is the standard ingredient product for the decoration purpose. This is very simple and exceptional in regular cake designs.

How to Use

Put in the planetary FoodDecor sweet lace powder. Add warm water at 40/45°C. (80g water for 100g sweet lace powder). Spin at medium speed for 2 minutes for a creamy texture. With the help of a scraper place the product on Sweet Lace pad in horizontal direction. Dry at room temp. for 3 hours or in oven at 80°C for 12 or 120°C for 6 min. let it cool and Turn the sweet lace pad upside down on the table and gently remove the decoration with the help of a scraper.
Note : Sweet Lace can be preserved in plastic bags well closed at room temperature for 30 days.

Lace Mat

Turn a plain cake into an elegant creation. These simple mat and texture sheets allow you to emboss unique designs and prints directly into your fondant or gum paste.

Pack Size	75g/Bottle	500g/Jar
-----------	------------	----------

Edible Gum

FoodDecor Edible Gum is of the highest quality. It is commonly used to add and stick the sugar flowers, figurines and decorative pieces to the cake. Finished pieces will set hard keeping its form and shape.

Pack Size	20g/Bottle	150g/Bottle
-----------	------------	-------------

Liquid Food Colour

Liquid Food Colours convert your choice into memorable taste. The product is available in all the colours. Liquid food colours are the basic and regular need of an artistic pastry chef. Colours can be blown by spray gun or can be mixed directly to make artistic flowers of cream.

This range is made of the best quality food colour. Since carefully selected finest ingredients are used for producing them, only a few drops suffice in bringing out the desired shade. The intensity of the colour can be adjusted according to requirement by changing the amount of colour used.

Available Assorted Range

MINI AIR BRUSH GUN

Mini Airbrush Gun

An airbrush works by drawing air from the compressor unit through the hose and out through the airbrush via a tiny needle which is located inside the airbrush at the end of hand piece. When you pull back the lever, Fine particles of colour are dispersed in the airflow. Airbrushing will allow you to take your creations to another level, producing stunning and professional results quickly and easily....

Specifications

Airbrush Single Action	
Feed	Gravity
Type	Nozzle Dia.:0.3-0.5mm
